The only place in this City where you CAN BUY A REALLY SUPERIOR

PIANO FORTE!

IS AT

175 East Water Street.

A LARGE ASSORTMENT OF CHICKERING & SONS', BOARDMAN & GRAY'S, and other celebrated Pianos for sale at Manufacturers prices which range from

$235 to $800

according to Size, Style and Finish.

The deservedly great reputation of these Instruments has induced unprincipled men to counterfeit them and many of their vile imitations are being offered for sale throughout the West.

The subscriber to guard the public against imposition would state that he is the only Agent in this City for Chickering & Sons and Boardman & Gray's Pianos and the only person who has the genuine article for sale.

The certificate of Agency can be seen at his Warerooms.

☞ Old Pianos taken in part payment for new ones, and a liberal price allowed.

INSURANCE OFFICES

WISCONSIN

Home Insurance Office,

No. 6 Kneeland's Block.

MILWAUKEE, WISCONSIN, MARCH 30, 1855

INSURANCE EFFECTED UPON DWELLING HOUSes, stores and other Buildings Household Furniture, Merchandize and other property, against

LOSS OR DAMAGE BY FIRE.

This is a new Company organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks, but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the Insuring Public, has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company.

This Company commenced business with a capital of $50,000, and have already issued upwards of 200 policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old *Stock Companies*, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the stock plan of insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the *Mutual principle*.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk, in Village, within a circle of 14 in rods diameter which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited.

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c, from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, out your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of Insurance.

The best of references given as to the responsibility of the Company.

MILWAUKEE MUTUAL

FIRE INSURANCE COMPANY.

Office in Martin's Block, Milwaukee.

Capital over $165,000—In Cash and Premium Notes

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of division. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the inconsiderable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and during that time three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

BRANDIES.

DIRECT FROM THE GROWERS

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived. Nine tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States at much advanced prices, and frequently in an adulterated state. In view of these facts and for the purpose of securing a fair price for their product, many of the [illegible] France has been accomplished with the view of shipment to the United States.

[illegible] name of the combination is the Central Society of Vineyard Proprietors of Cognac, under the General management of a Director, and the direction of a President, Vice President, and a Committee of Inspection of [illegible] The society [illegible] numbers five hundred [illegible] proprietors, among them some of the most [illegible] [illegible] in the neighborhood of Cognac, who contribute, under certain by-laws, the entire growth of their vineyards to the general fund of the society. The present capital of which is three million francs. The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment on the subject; nevertheless it may be worthy of observation that the features in this society possess a more striking [illegible] than the fusion of interest [illegible] between buyer and seller, since all are [illegible] necessarily [illegible] the interest of each individual to contribute by every means in his power to uphold the reputation which this society is endeavoring [illegible] for shipment of the best qualities of brandies [illegible] purpose [illegible] introduced in the statutes [illegible] that shareholders shall supply the society with the very best Cognac brandies, [illegible] entire forfeiture [illegible]

INSURANCE OFFICES

WISCONSIN
Home Insurance Office,
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 30, 1855

INSURANCE EFFECTED UPON DWELLING HOUSes, Stores and other Buildings Household Furniture, Merchandize and other property, against
LOSS OR DAMAGE BY FIRE.

This is a new Company organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks, but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the Insuring Public has induced the Directors to make it a purely Mutual Company Besides this, *it is believed that the recent failures* of *many of the* Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company

This Company commenced business with a capital of $50,000, and have already issued upwards of 200 policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred

The recent failures of several of the old *Stock Companies*, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the *Stock* plan of insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the *Mutual principle*

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk Agents are also instructed not to take to exceed $1000 upon any one risk, in Village, within a circle of 4 in rods diameter which of course will prevent very great loss at one fire

Applications for Insurance, respectfully solicited

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.
THE MADISON MUTUAL,
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c, from one to five years, at lower rates than most other responsible Companies

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, but your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property In this Company all such property is rejected POSITIVELY BY LETTING THEM ALONE

Farmers, look to your own interest, and insure in a Farmers Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of Insurance

The best of references given as to the responsibility of the Company.

MILWAUKEE MUTUAL
FIRE INSURANCE COMPANY.
Office in Martin's Block, Milwaukee.

Capital over $165,000—in Cash and Premium Notes
THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of prevision. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2900 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar Its business is principally confined to this State.

Pure Unadulterated BRANDIES.
DIRECT FROM THE GROWERS

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived Nine tenths of that imported is bought from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States at much advanced prices, and frequently in an adulterated state In view of these facts and for the purpose of securing a fair price for their produce, the vine growers of France have been accomplished with the view of shipment to the United States

The name of the association is the Central Society of Vine yard Proprietors of Cognac, under the General management of Mr Reduce, the direction of a President, Vice President, and a Committee of Inspection of eleven members. The society's Proprietors number five hundred vineyard proprietors, amongst them some of the most influential gentlemen in the neighborhood of Cognac, who contribute, under certain by-laws, the entire growth of their vineyards to the general fund of the society the present capital of which is three million francs The advantages to be obtained from this combination are so apparent to the consumer any further comment on the subject, nevertheless it may be worthy of observation that the features in this society possess a more striking claim to public attention The fusion of interests between buyer and seller since all are shareholders it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation with which the society is endeavoring to form for shipment of the best qualities Wherein for this purpose clause introduced in the statutes are to the effect that shareholders shall supply the society with the very best Cognac brandies, otherwise they incur the penalty of an entire forfeiture of their shares

The undersigned, sole agents in the United States for the Central Society Vineyard Proprietors of Cognac would solicit the attention of merchants, hotel keepers, grocers and others to the stock now on hand, sufficient which will compare in all favorably with any article now in the market, and at prices far below the standard of even ordinary Cognac

Expenses of Living in Europe—Meals—Hotels—[illegible] Bills [illegible] of both Sexes in Rome—[illegible] Expenses of Travelling—a Hard [illegible]—Weather [illegible]

ROME, March 15 1855

While taking breath before commencing with the reader upon the vast field of knowledge of every kind which this wonderful city opens to the writer and visitor, many perhaps would like to know the facilities of communication, and expenses of travelling in this country.

In this respect I find that the cost of living as well as that of travelling far exceeds that of my expectations and information. At Southampton two dollars a day for board is the usual charge. At Paris three dollars per day will barely suffice to live comfortably at a second class house. The expenses however, would be less in the summer than in the winter, on account of the high price of wood. The same at Nice. This being a watering place, but at Marseilles, Genoa Leghorn, and this city, two dollars a day just about covers the charges.

Starting with France, the custom of living in hotels is about the same thing. There is only one meal in the day at which the guests meet and eat together as in America—this is dinner here, and called the *table d'hote*. The price to this is generally fixed, and ranges from three to five francs. This meal is taken from half past four to half past six. The cooking is entirely French and consists of innumerable small dishes of meat, &c., mixed and unmixed as much as the doses of a small pill doctor. Stews and soups form no inconsiderable part. The meats are so boiled up and mixed with mints and other grass that I never pretend to know what they are. The potatoes are boiled so much too, that they are in the shape of paste, without having any of the original taste. I have never seen anything fried or roasted.

It usually takes something more than an hour to eat. The dishes are changed about a dozen times. The desert is good, consisting of apples, very nice oranges, and other fresh fruit, nuts, raisins, &c. No tea or coffee is used at this meal. A bottle of wine is set between every two persons. With a profusion of dishes and two rows of bottles of wine running the whole length of the table, reflecting a brilliant ruby color, the dinner tables make quite an imposing appearance—particularly so when it must be remembered that the dining hall of every public house in Italy that I have seen yet, has a high vaulted roof, handsomely painted, the niches in the walls between marble columns filled with beautiful statuary, and the sides of the rooms adorned with beautiful paintings.

Breakfast is generally taken about nine, and consists of coffee bread and butter, and sometimes egg boiled or in an omelet—just as the guest calls for. There is no supper as a general thing. Sometimes I have observed a cup of tea carried into rooms by the servants, but rarely.

It is a matter of option with the traveller whether he takes one or even any meals at his hotel. On arrival he generally makes a bargain for his room, and if he intends to have any meals, for the price of those, too. The price vary from one to five francs a day for rooms. In addition to this there is a fee, usually one franc per day for service—that is for taking care of the room. At Nice I paid the latter sum, in all six francs per day, not having made any bargain previously. A traveller that is a little green on these points, soon learns that he has got to make his bargain beforehand for every thing, or else he will find that he will have to pay as high as those prices frequently.

In making up one's bill they charge every thing through each successive day. For instance one concludes to have one egg to-day instead of two yesterday, the bill of to-day would show two and one half baiocco difference. This is a Roman coin, and equal to the penny with us.—In France the books are generally kept by females and perhaps this may in part account for the eternal SUPERSTITIONS with such slight variations. My hotel bill for ten days in Paris resembles a bill of a New York commission house, for a stock of goods.

There is one thing I have noticed wherever I have been, that the beds and rooms are kept scrupulously clean full as much so as among the Americans. Nor is yet have I found in a single instance any vermin of any kind on any of the beds or in any of the public houses—on the contrary the rooms show the travellers are generally [illegible]

I[illegible] have excellent fine beds, good furniture and an air of comfort throughout such as is inviting him strongly to tarry. This is [illegible] not generally understood. There is one thing however, should always be taken [illegible] with this soap. Why this is [illegible] I [illegible] not tell. It is an improvement yet to be made.

At Geneva I occupied a private apartment that would have been declared a splendid room in any country, for it was located in a former palace, where the furniture was complete and ample. There were mirrors, clocks, wardrobes, bathing arrangements, two large bowls and pitchers and two dishes for soap curiously arranged for drawing off the water—all of fine [illegible]—but no soap in either of them. One [illegible] generation, and soap will be as plenty in European public houses, as black birds in a new field. No place manufactures a better article of it than Genoa does now.

In Rome, quite recently, some improvements have been started, such as a telegraph to Naples, and lighting the Corso by gas. This street is the city, is the Broadway of New York. The ladies, too have caught the fashion from some quarter, and among the uppertendom may be seen their bonnets setting jauntily on the backs of their heads. And gentlemen (!) wish shawls on! Only think of that! No one can say but what the spirit of improvement is abroad even in old Rome. The first one I saw, was upon an old dandy dwarf, who might have been 45 inches high, and nearly as thick as he was long. He was walking along in a shower in the middle of the street—for sidewalks have not yet come into use—with both ends of his shawl dragging along in the mud.

Speaking of dwarfs, there are a great many of them here of both sexes. They all look to be citizens. I can account for it only one way, and possibly that may be the cause. I notice that mothers bandage up the feet of their children, until, I should judge, they were one year of age. The feet are wrapt up tight in these bandages, very similarly in appearance to the manner of swathing the bodies of mummies in the embalming process.

Expenses of travelling by land are very dear indeed. The journey from here to Naples, 160 miles or to Florence, which is nearly the same distance, costs more to the traveller than the entire expense from Milwaukee to New York. If one should ride in a mail coach, called here *mal a-posta* the fare to Naples is nineteen *scudi*, a little more than nineteen dollars. But diligences, single lumbering coaches divided off into three divisions, are the general modes of conveyance used by travellers. They have two, three and sometimes four old worn out rickety horses which the postillions *lash* through, at the rate of five or six miles an hour, changing every ten miles. These arrangements are all under government such as they are. There is always a person called the guard, who accompanies the diligence. At each station the different postillions come round for their *buono mano*, and they look daggers if any of the passengers refuse. I never shall forget the first one, that drove us to the first station from Civita Vecchia. He was a swarthy, dirty looking fellow, with a slouched hat, long boots coming up over his knees, a coat of Joseph's of many colors, long hair, and petty larceny written all over the small portion of his face that was not covered with hair. But the most [illegible] feature in this [illegible] rascal's countenance, was his eyes. They were small and deep set, jet black, looked askant of each other, and the light from the pupils seemed to forge up out of hell itself. Every little while he would look around from his position on the near wheel horse and survey us, seemingly calculating the chances of success in an attempt to cut our throats.

The expenses of travelling on steamboats are about the same in proportion.

The climate of Italy is very different from what I supposed. Instead of finding a soft balmy air peculiar to our spring weather, and a blue sky such as we read of and see in the paintings of landscapes, I have found it quite the reverse. The weather is generally thus far, cold and rainy. Of the time I have been in Rome, it has rained more than one half. When it is warm, we have none of that rejuvenating weather, reminding one of the birds and flowers, the brooks and meadows, but a scalding, oven like heat, which is very oppressive and enervating. I have failed as yet in seeing sunrises or sunsets that begin to compare with those in Wisconsin, for delicacy of tint, and drapery in the clouds.

Now having got through some preliminaries heretofore unmentioned, yet which I think will contain matters of interest, to some, at least, of my readers, I shall in my next introduce them to the palaces churches, picture galleries, temples, baths and theatres of one of the greatest cities of the earth, either of the past or present age.

But Rome now, great as she is, is but a shadow of what she has been. She sits under the cypress, with her harp on the willow. Byron amid our ruins, with a heart sad as themselves, once sang:

> "The Niobe of Nations! there she stands,
> Childless and crownless, in her voiceless woe
> An empty urn within her wither'd hands,
> Whose holy dust was scatter'd long ago;
> The Scipios' tomb contains no ashes now,
> The very sepulchres lie tenantless
> Of their heroic dwellers; dost thou flow,
> Old Tiber! through a marble wilderness?
> Rise with thy waves and mantle her distress."

Common Council.

The meeting of the Council on Monday evening was characterized by some features of interest.

An invitation was read from C. K. WATKINS President of the Lake Shore R. R., inviting the Common Council to be present at Kenosha on Thursday, to witness the laying of the last rail, completing the connection between this city and Chicago. The invitation was received with due complacency, and, as was right, $75,000 of the bonds of the Company released to them, in view of the advanced stage of the work.

We copy a portion of the Memorial of the Lake Shore Co asking the release of the bonds

The said company beg leave to represent to this committee that the said road is now within four miles of completion to the state line, and will be finished on Wednesday or certainly upon Thursday next. That said company have in readiness at Chicago a locomotive and eight passenger cars, and also have upon the track another locomotive and 10 house cars and 20 platform cars, besides two other locomotives engaged and daily expected to arrive. The said company will commence as early as Friday, as is confidently believed, to run a train of cars in connection with the Illinois portion of the road to Chicago, and beginning the regular running of trains to Chicago next. The said company also represent that grounds have been purchased for depot buildings at the City of Milwaukee and are doing [illegible] of driving piles across the marsh at said city and of erecting suitable buildings and otherwise making complete the said road and all improvements connected therewith at the earliest day possible, and for such purpose to employ all the force that can operate in so doing. The said company are of opinion that it is greatly to the interest of this city to have all such improvements perfected as speedily as possible, and as [illegible] the favorable consideration of said [illegible] having contributed essential aid to [illegible] beg leave to assure said Council that [illegible] has always [illegible] soliciting such aid, [illegible] secured the said city, and make the present [illegible] in the sanguine belief that the security of the city is so abundantly ample that no possible contingency can the said city be exposed to loss.

Ald. Powers stirred up Marshal O'Brien considerably by intimating the impropriety of his action as to the enforcement of sundry ordinances, relating to the collection of licenses of various kinds. It is singular that a man of Ald. Powers' sagacity has not long ago ascertained that the Marshal takes pay for the honor of the thing, of enforcing ordinances.

The plan of the 5th Ward Ship Canal, reported by the local Board, was adopted, and notice of the jury ordered, to consider the subject in the [illegible]

Ordinances passed concerning widening Spring [illegible], and for permanent grade of North Water St.

A communication from the Chief Engineer was read asking a new Engine for Co No 1, the oldest in the City and one which needs and well deserves a new machine.

The Board adjourned to meet again in special session to-morrow evening, at which time, it is understood that the Board of Health will be organized. We have in our possession a copy of an Ordinance, recently passed in Buffalo which contains some excellent provisions in relation to the preservation of public health, and it is at the service of any of the Aldermen who wish to use it.

American Iron.

The *Railroad Advocate*, speaking of the comparative excellence of American and English iron has the following.

In regard to the wear of the two kinds of iron, we have conclusive experience. We do not believe there is a man of any experience who will deny that American iron is much better than English iron. On the Reading road where careful examinations have been recorded, and with a tonnage unsurpassed by any railroad on the globe, it is found that American iron wears but from one third to one half as fast as English iron. The average of six years' wear of 60 lb. English rail was about 11 per cent. annually.—The average of four years' of the "Erie" (English) pattern, was 16 per cent annually. Contrast with this the wear, in the same track, of the Phoenix and Danville rails. The rail of Reeves, Buck & Co., of Phoenixville, wore at the rate of 3 per cent a year for six years. The Montour Danville rail, at the rate nearly of 5½ per cent. for four years.

Whatever may be the quality of a rail, the Reading road will prove its durability. No other test is needed—where fifteen millions tons of freight and cars are passed over a road in the pace of six years. If a rail is laminated, has soft spots, or is made inferior in any respect, it is bound to show itself, inside out, in a five years' test on the Reading road.

We hope other great roads will be made to show the relative wear of the two irons, not to establish any more conclusive proof of the superiority of American iron, but simply that its real character may become more generally known.

The Great Bombardment.

The correspondent of the London Times writes as follows, under date of April 10th

During the whole of the morning, the firing continued on our side with little intermission, while that of the Russians was evidently slackening. At about four o'clock however, all the enemy's lines and batteries suddenly sprung into life and vigor. Volleys of from 100 to 150 guns were fired at once from the Redan, Flagstaff, Barrack, Garden and Malakoff Batteries, even the Mamelon which all thought destroyed and or enabled fired five or six guns in rapid succession. Their shot came in upon our works like hail. On every point along our lines balls were to be seen bounding and plunging, and shells bursting like fireworks in the air. Never, perhaps was such a concentrated and destructive cannonade witnessed since the commencement of the siege. All felt that if it continued two or three hours our works would be leveled with the dust, although both English and French kept up a terrific fire on the enemy in spite of our utmost efforts gave five guns in reply to our one.

Suddenly the enemy's batteries made a dead pause. For nearly a quarter of an hour not a gun was fired. The allies kept up their bombardment, the French battered the Flagstaff and works to the left, our shot ploughed into the Redan and Malakoff, and our 13-inch shells burst in regular succession in the centre of the Mamelon, but not five guns did the Russians give in reply. Nearly twenty minutes passed on their side in this state of inactivity, when again suddenly the Redan and Flagstaff broke out in heavy volleys, and maintained them.

We are happy to announce that A. C. Bates, Esq. has resigned his appointment of Deputy U. S. Marshal, and that he believes the fugitive slave act is unconstitutional. He cannot be found in any case aiding in its execution.—[Janesville Free Press.

ACCIDENT.—Just as the *Superior* was preparing to leave Day's dock, one of her deck hands had his leg badly broken, in consequence of getting it caught in a line used for making fast the boat. The injured man was a resident of Green Bay, and had shipped the morning of the accident,—he was immediately taken to his family and his wounds attended to.—[Ft. Howard Era.

The Voices of the Rain.

BY MARION HARLAND

[Authoress of "Alone, a Virginia Novel."]

One balmy day—hast thou forgot?
All April was the weather—
When from the honey-suckled porch,
We watched the sky together,
Through the thin, fleecy veil of clouds
The sun was mildly beaming
And more in mist than pouring showers
The rain was softly streaming
Like a [illegible] along the verdant plain
Fell the gentle, gentle silver rain.

Another time—thou wert away
'Twas the glowing month of roses
When summer wooed by ardent sun
Her fervid heart discloses,
There came a note which bade prepare
For [illegible] greeting;
Sm[illegible] by the casement sat
With the welcome letter beating
Time to the music 'gainst the pane
Of the laughing singing, golden rain.

In gloom and storm our parting came
That dark and weary fated even!
We could but whisper brokenly,
"If not on earth—in Heaven!"
At the future, stretched so dark and lone
Our loving hearts were wailing,
A piercing wildly-sad refrain
To the heavy, sleeping Autumn rain.

What are we now? We who then vowed
But death our hearts should sever!
Within thy breast the flame of love
Is quenched and cold forever,
While deep in mine, that [illegible] of woe
Beats in its anguished throbbing—
The blast against the window breaks
In plaintive, fitful sobbing—
And my heart weeps in tears in vain
With the bitter, bitter winter rain.

Richmond, Va., April 27, 1855.

THE MANUFACTURE OF PORT WINE.—When port is required to be manufactured, two separate processes are deliberately and systematically gone through—first, the wine itself is made and then the bottles are prepared into which the liquor is to be transferred. When the mixture itself is deficient in the fragrancy peculiar to the grape, a bouquet is contributed, by means of sweet-scented herbs by orris root, elder flowers, or laurel water. A vinous odor is sometimes imparted by small quantities of the liquid known as the "oil of wine." The pleasant juice of the sloe imparts a port-like roughness to the compound, and sawdust or oak bark effect the same purpose. A fruity taste is given by a tincture of raisins, and the rich ruby color has probably once flowed in the vessels of the sandalwood tree.

But the bottles have to be crusted. This is done by tincture of catechu and sulphate of lime. The corks are steeped in a decoction of Brazil-wood, and the very casks are prepared with a layer of cream of tartar, which is formed at the bottom in glittering crystals. Thus a pipe of port which was young in the morning is made to fall into extreme old age in the course of the afternoon. There are exaggerations, and the following has been given as the chemical analysis of a bottle of cheap port wine, though for obvious reasons we suppress the quantities:—Spirits of wine, cider, sugar, alum, tartaric acid, and a decoction of logwood. In most instances, when the wine is not manufactured in this country, the consumer is victimized by a three fold adulteration. The exporter adulterates, the importer adulterates, and finally the retail dealer adulterates.—Hunt's Magazine.

WANTS OF JANESVILLE.—There are several kinds of business that might be prosecuted profitably in this City, and that would be of great advantage to the public, as well as the individuals who engage in them.

We need a good and extensive manufactory of farming tools. Cannot some one engage in this important business.

We need a manufactory of edge tools of various kinds.

A glass factory would be a great help to the country. We are told that sand is found in great abundance near us, such as is used in that important business.

A paper mill is much needed.

A pottery would do a fine business and we are surprised that there is none in Rock Co.

A shop for the manufacture of first class carriages might be a good addition to business in that important line.

These would increase business, give employment to industry and add to the population and wealth of the town. Who will undertake the works?—[Free Press.

Information Wanted.

The sudden and singular disappearance of two boys, by the names of James and William Dow, brothers, one fourteen and the other sixteen years of age, who left home on Sunday, March 4th, between 8 and 9 o'clock, has caused much anxiety to their parents. Which way they went or what has become of them, or for what cause they left is unknown. Their manner of leaving—one without a coat, both without a change of clothes, without taking money of their own and leaving behind clothing of importance to them—has been a source of much trouble, such as parents only can know.

Whoever will give information where said boys may be found or where they have been since the 4th of March, will relieve their parents of great anxiety, and may be assured that full compensation for all trouble will be granted with the greatest pleasure.

WHAT OUR KNOW NOTHING FRIENDS MUST COME TO.—The New York Herald sees indications of a tendency of the Administration to a fusion with the Seward Holy Alliance. It tells the South that no party can be relied on save the "great national Know Nothing organization cleansed and purified, as it soon will be of the dirt and refuse of the Massachusetts anti-slavery propaganda." The Massachusetts brethren will be compelled to hoist a private and personal star-spangled banner.

Here is another rebuff from the Baltimore Patriot, a very strong and enthusiastic K N paper. "The K. N's of Massachusetts having taken a strong abolition ground, cannot claim any longer to belong to the order. They are better entitled to the name of the black pepper party. At all events, they will doubtless—after the assembling of the national convention be a K. O., kicked out, party."—[Boston Atlas.

FAMINE IN UPPER GEORGIA.—We have sad accounts from the north part of Georgia. The Dalton *Times* says that many people are without corn, or any means to procure any and besides, there is none for sale. In some neighborhoods, a bushel could not be obtained for love or money. If they plead "our children will starve" they are answered "so will mine, if I part with the little I have." Horses and mules are turned out into the woods, to graze for grass or starve. The consequence is, that those who have land can only plant what they can with hoe—they cannot plow. It is seriously argued that, unless assisted soon, many of the poor class of that section must perish.—[N Y Tribune.

TELEGRAPH FROM LONDON TO THE CRIMEA.—On the 26th ult. the electric telegraph was put in operation from the War-Office in Whitehall to the head quarters of Lord Raglan before Sebastopol, and the Government in the course of the afternoon received communications which were dispatched from the Crimea at four o'clock that morning. The submarine cable from Cape Kalerga in Bulgaria, to the Monastery of St. George in the Crimea, lies a length of 301 miles across the bottom of the Black Sea. It was laid down on the 10th, 11th, 12th and 13th of April.—Henceforth, reports of all important events will be made simultaneously to Lord Raglan in the camp, and to the War-Office in London.

SAXVILLE.—This flourishing village is situated on Pine River in the town of Ontario Waushara Co., in the heart of one of the best farming sections of Central Wisconsin. It has an excellent water power, and at present has four Mills in its vicinity, 2 flouring mills, each with two run of stones and corn crushers and 2 saw mills, making one and a half million feet of lumber per annum.

It contains a population of 100 persons.—Stevens Pt Pinery, May 10.

DROWNED.—At Conant's Rapids on Monday the 7th inst., Samuel Harlow, (late partner of Reuben Welch, above Big Bull, formerly of the Kickapoo River,) also Lawrence Welch, understood to have been from near Montello. Lost in attempting to go in a skiff to a crib of lumber that had got fast in the river, just above what is known as the red rock, two other persons were in the boat when it capsized, to-wit: William Reynolds and Samuel Jackson. Reynolds got on to the crib, Jackson swam to a rock and was saved.—*Stevens Point Pinery.*

THE LUMBER.—Our raftsmen had about eight days of the best kind of running, and got out the lumber with great rapidity. The water went down suddenly on the 6th and 7th, and a general suspension is the consequence. We look for showers soon, and hope to see a rise of the river and a resumption of the running out of rafts. The quantity to go out is heavy. One house alone, Messrs McIndoe & Shuter, have as we are informed at least *one hundred thousand dollars worth* on the water.—[Stevens Pt. Pinery, May 10.

MORE NEW BUILDINGS.—Messrs Cook & Davis have the contract for erecting the "Union School House," on Church street, in this village. The building is being constructed of cut stone, two stories high, and 44 by 64 feet on ground. The walls are already up 8 or 10 feet. The stone work will cost about $2000, and the building, when completed, will cost $5,000 or $6,000. It will be an imposing edifice, and certainly an ornament to the village.—[Waukesha Plaindealer.

FIRE IN THE WOODS.—For the last two weeks the woods in every direction have been on fire. We should suppose much valuable timber must have been destroyed.—[Ft. Howard Era.

CITY MATTERS.

POLICE COURT.—May 15.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A warrant was issued against Charles Reed, for committing an assault and battery upon Sarah Reed his wife. The defendant was arrested on Monday night by constable Kisler, and put in jail. He had not sufficiently recovered from his drunkenness to be tried, the case was set down for this morning at 9 o'clock.

A warrant was issued against A. F. Johnston for assault and battery upon Cornelius Washington.

Menzel, Stone & Co's. Steam Engine Factory.

Messrs MENZEL, STONE & Co., of the Fifth Ward have just turned out from their factory, a short distance south of the Menomonee Bridge, a splendid steam Engine for R. Mason, of Portage City. It is 26 inch stroke, 10 inch bore, solid bed frame of iron, 8 feet balance-wheel, 16 inch face, intended for driving pully. Another in the shop is nearly finished for Mr Brawley, of Stevens Point, of smaller size—8 inch bore, 16 inch stroke intended to run 900 per minute. Both these engines are exceedingly simple and of the best workmanship. They have been made to wear, the solid bed frame being a great advantage. One engine of their make is now in operation at P. S. Gro[illegible]'s, Watertown. The boilers are made by CUMMINGS & GOODRICH. The engine made for Mr Mason is still in the shop and can be seen for a few days. They are prepared to receive orders for engines of any power, also for Threshing Machines, Pumps, Saw Mills, Horse Powers, Hoisting Machines &c. They can be found on the corner of South Water and Reed Streets, next to the Menomonee Foundry, Fifth Ward.

PROPELLER NIAGARA.—Elsewhere will be found the list of consignees of merchandize brought up by this vessel. She looks rather the worse for her long winter's stay in the sand of Presque Isle Bay but is staunch and strong, and will come out all right yet. A large part of the cargo consisting of coffee, fish groceries, &c., which had been several months under water, was of no particular account except to give the hands the cholera in getting it out of the hold.

The propeller had on board some $60,000 worth of merchandize for this port, of which $16,000 was for Sexton Bro's. The owners of the boat, the owners of goods, and the Insurance Companies (the Home and the Commercial of this city) having some $30,000 at risk are at issue about the heavy damages and Sexton Bro's have attached the boat. The goods are stored at GOODRICH HUNTER & Co's.

HATS, CAPS & FURS.—We took a hasty survey, yesterday of the premises No. 180, East Water Street occupied by THROOP & BROTHER, which in all four stories, is filled with goods. Every style of Hat & Cap for Spring or Summer wear, may there be found and the most fastidious taste suited to a dot. Some of the new styles of summer hats are exceedingly neat and cool looking, and wholesale as well as retail purchasers can be readily accommodated by Uncle Ben. We noticed in front of the store several packages of Furs for shipment East making almost $3000 that Throop & Brother have already sent forward this season.

RAILROAD FREIGHTS.—GOODS FOR THE COUNTRY. The Railroad depot is crowded with merchandize for the country, though no goods forwarded by the Erie canal, have yet got along. The M. & M. Railroad Company despatch two freight trains Westward, daily, and will have to send three a day to clear out the accumulating stuff. The in-freights are also large, and the receipts of the road nearly $2000 a day. The Watertown road is also doing a very large business, both in passengers and freight.

NOT A FALSE ALARM.—We are informed by the watchman of the Menomonee Foundry that the alarm of fire on Sunday evening last, did not proceed from a steamboat bell, but was rung by himself and Engine Co's No. 4's bell, as flames were seen to rise for some minutes from the brick block on East Water St. between Detroit and Buffalo Street.

WHITEWATER ENTERPRISE.—An extra train on the M. & Miss. R. R., brought in yesterday from Whitewater 1120 bbls. pork, put up by S. C. HALL & Co., merchants of that thriving village. The same firm we understand, has about the same quantity still to come in.

MENOMONEE BRIDGE.—The bridge across the Menomonee, near the Railroad depot was open full two hours, yesterday morning, to allow two or three lumber craft to haul through, delaying scores of cartmen, teamsters and others taking loads of produce and merchandize, to or from the railroad. This is a nuisance that needs prompt attention.

DRY WEATHER.—The country thirsts for rain and farmers begin to feel anxious about their crops. The warm, dry weather of the last fortnight or so is trying to the young grain. The skies have promised rain for a day or two, and it is to be hoped that it will soon be forthcoming.

☞ The steamer Arctic arrived from Chicago yesterday afternoon, with 350 passengers and a good load of freight. A very handsome horse was brought in her, and is for sale.

The Arctic brought a large number of passengers some of whom were in a very sickly condition.

SUGAR-CURED HAMS.—The propeller *Allegheny* takes for the benefit of down east *bonnevivants* 300 barrels of ALFORD & Co.'s superior sugar-cured hams, which have a deservedly high reputation. They are contracted through to Troy, at $11 per ton.

THE CITY MILLS.—Messrs STUART & HOTCHKISS' short card see in our advertising columns, have taken the City Mills, and are prepared to supply their customers and the public with Flour Mill Feed, &c.

DAMAGED DRY GOODS AT AUCTION.—Rooney has an extensive sale of damaged dry goods at auction, Friday morning, to which he invites the attention of country merchants.

THE BALAKLAVA RAILROAD.—The London *Times* says editorially that the public will learn with scarcely less surprise than satisfaction the [illegible] object of the Crimea Railway Expedition is already completed, and that the munitions of war are now being conveyed direct from Balaklava to the trenches. It is needless to [illegible] how vast a remission of toil to the overtaxed strength of the troops is thus effected, and with what increase of vigor and animation they now address themselves to the legitimate prosecution of the business of the siege, without the exhaustion consequent on labors wholly alien to those of an ordinary military nature.

Moreover the line is now laid and worked from Balaklava to the French at the top of the steep incline, hitherto by horses, but at the date of the last advices the engine had begun to supersede animal power, which was gladly used for other purposes. Thanks to the agency of the railway, we have now begun to reciprocate the services the French had bestowed upon us in our extremity, for a large quantity of hut and hospital timber had been forwarded as long ago as the 10th and such aid was highly appreciated by our allies, who are enthusiastic in their admiration of the systematized application and endurance of the navvies and delighted by the methodical order and regularity that prevail through all the arrangements of the corps.

This recognition in the part of the French is the more remarkable as they themselves are, and have all along been, well provided with horses and other means of *transport*. The branch to the opposite side of the harbor has for some time been completed, and available for the removing the heavy guns and mortars on the *Diamond* wharf, and by rendering both sides of the harbor is of the greatest utility."

☞ The rush of vehicles past our sanctum seems to increase daily, and business of all kinds has never been so lively. New buildings are going up, and old ones go down or out of the way at a rapid rate. Stone and brick blocks, for business purposes, are filling up the business portions of our place, but a much larger number of dwelling houses than is being erected are absolutely needed. We are daily losing population on account of this want.—[Madison Democrat.

REAL ESTATE SALE.—Forty acres of land, on the south line of Wauwatosa, four miles from the city limits, were sold yesterday, by John Sheldon, to Geo. Gordon and C. D. Booth, for $1,700—42 50 per acre.—[Free Democrat.

NOTICE TO MARINERS.—The Detroit Inquirer cautions mariners navigating the Detroit river relative to the wreck of the *Oregon*, which is now sunk below the surface in the channel in a very dangerous position for vessels passing up or down. There is no buoy or mark to show where the sunken wreck lies and this creates the difficulty. The *Oregon* lays a little below the upper fish houses on Hog Island, about midway between the banks, and rather on the British side of the channel. Vessels passing should keep well in with the point on Hog island.

MEXICAN MUSTANG LINIMENT.

From rich and poor, bond and free—all grades, colors and conditions, the same meed of praise is irresistibly given to this wonderful preparation. Thousands of bottles are sold and used daily, and but one universal opinion is uttered by all who use it, and that is, that no remedy ever before discovered, possesses such perfect healing and curative properties. It acts like magic in relieving pains of any kind, no matter by what caused, or how excruciating—sprains, dislocation of joints, bruises, cuts, burns, scalds, ulcers, cancers, rheumatism, piles, caked breasts or any pain, soreness, stiffness, or weakness of joints muscles or ligaments. The Liniment is equally applicable and equally effectual in giving immediate relief. Try it.

Holloway's Ointment and Pills, the most efficacious Remedies in the Union for the cure of Erysipelas. Emma Henderson, of Fourth st., Philadelphia, was a very severe sufferer for two years with the Erysipelas, she became almost blind and deaf with the severity of the disease, so bad was the attack, she consulted several of the Doctors in her neighborhood, but they did her no good. She finally determined to have recourse to Holloway's Ointment and Pills, and by the joint use of these two remedies, she was cured in six weeks, after every other treatment had failed. my16 d&w

A little girl crossing Broadway, above the mound a day or two ago was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket, and so he does.—*St. Louis Intelligencer.*

RAMBLES IN EUROPE—NO 15.

Expenses of Living in Europe—Meals—Hotels—[illegible] Beds—[illegible] of both Sexes in Rome—[illegible] Travelling—a Hard [illegible]—Weather [illegible].

ROME, March 15 1855

While taking breath before commencing with the reader upon the vast field of knowledge of every kind which this wonderful city opens to the writer and visitor, many perhaps would like to know the facilities of communication, and expenses of travelling in this country

In this respect I find that the cost of living as well as that of travelling far exceeds that of my expectations and information. At Southampton two dollars a day for board is the usual charge. At Paris three dollars per day will be barely sufficient to live comfortably at a second class house. The expenses however, would be less in the summer than in the winter, on account of the high price of wood. The same at Nice, this being a watering place, but at Marseilles, Genoa Leghorn, and this city, two dollars a day just about covers the charges.

Starting with France, the custom of living in hotels is about the same thing. There is only one meal in the day at which the guests meet and eat together as in America—this is dinner here, and called the *table d'hote*. The price to this is generally fixed, and ranges from three to five francs. This meal is taken from half past four to half past six. The cooking is entirely French and consists of innumerable small dishes of meat, dressed and unmixed as much as the doses of a small pill doctor. Stews and soups form no inconsiderable part. The meats are so boiled up and mixed with mints and other grass that I never pretend to know what they are. The potatoes are boiled so much too, that they are in the shape of paste, without having any of the original taste. I have never seen anything fried or roasted.

It usually takes something more than an hour to eat. The dishes are changed about a dozen times. The desert is good, consisting of apples, very nice, oranges, and other fresh fruits, nuts, raisins, &c. No tea or coffee is used at this meal. A bottle of wine is set between every two persons. With a profusion of dishes and two rows of bottles of wine running the whole length of the table, reflecting a brilliant ruby color, the dinner tables make quite an imposing appearance—particularly so when it must be remembered that the dining hall of every public house in Italy that I have seen yet, has a high vaulted roof, handsomely painted, the niches in the walls between marble columns filled with beautiful statuary, and the sides of the rooms adorned with beautiful paintings.

Breakfast is generally taken about nine, and consists of coffee bread and butter, and sometimes egg boiled or in an omelet—just as the guest calls for. There is no supper as a general thing. Sometimes I have observed a cup of tea carried into rooms by the servants, but rarely.

It is a matter of option with the traveller whether he takes one or even any meals at his hotel. On arrival he generally makes a bargain for his room, and if he intends to have any meals, for the price of those, too. The price vary from one to five francs a day for rooms. In addition to this there is a fee, usually one franc per day for service—that is for taking care of the room. At Nice I paid the latter sum, in all six francs per day, not having made any bargain previously. A traveller that is a little green on these points, soon learns that he has got to make his bargain beforehand for every thing, or else he will find that he will have to pay as high as those prices frequently.

In making up one's bill they charge every thing through each successive day. For instance one concluding to have one egg to-day instead of two yesterday, the bill of to-day would show two and one half baiocco difference. This is a Roman coin, and equal to the penny with us—In France the books are generally kept by francs and perhaps this may in part account for the eternal repetitions with such slight variations. My hotel bill for ten days in Paris resembles a bill of a New York commission house for a stock of goods.

There is one thing I have noticed wherever I have been, that the hotels and rooms are kept scrupulously clean. full as much so as among the Americans. Nor as yet have I found in a single instance any vermin of any kind on any of the beds or in any of the public houses—on the contrary the rooms show the travellers are generally provided, have excellent fine beds, good furniture, and an air of comfort throughout such as is inviting him strongly to tarry. This inn[illegible] not generally understood. There is one thing however, should always be taken along with us, soap. Why this one thing is lacking I cannot tell. It is an improvement yet to be made.

At Genoa I occupied a private apartment that would have been declared a splendid room in any country, for it was indeed in a former palace, where the furniture was complete and ample. There were mirrors, clocks, ward robes, bathing arrangements, two large bowls and pitchers and two dishes for soap curiously arranged for drawing off the water—all of fine colors—but no soap in either of them. One more generation, and soap will be as plenty in European public houses, as black birds in a rice field. No place manufactures a better article of it than Genoa does now.

In Rome, quite recently, some improvements have been started, such as a telegraph to Naples, and lighting the Corso by gas. This street in this city, is the Broadway of New York. The ladies, too have caught the fashion from some quarter, and among the uppertendom may be seen their bonnets setting jauntily on the backs of their heads. And gentlemen (?) with shawls on! Only think of that! No one can say but what the spirit of improvement is abroad even in old Rome. The first one I saw, was upon an old dandy dwarf, who might have been 48 inches high, and nearly as thick as he was long. He was walking along in a shower in the middle of the street—for sidewalks have not yet come into use—with both ends of his shawl dragging along in the mud.

Speaking of dwarfs, there are a great many of them here of both sexes. They all look to be citizens. I can account for it only one way, and possibly that may be the cause. I notice that mothers bandage up the feet of their children, until, I should judge, they were one year of age. The feet are wraps up tight in these bandages, very similarly in appearance to the manner of swathing the bodies of mummies in the embalming process.

Expenses of travelling by land are very dear indeed. The journey from here to Naples, 160 miles or to Florence, which is nearly the same distance, cost more to the traveller than the entire expense from Milwaukee to New York. If one should ride in a mail coach, called here mal-poste, the fare to Naples is nineteen scudi, a little more than nineteen dollars. But diligences, great lumbering coaches, divided off into three divisions, are the general mode of conveyance used by travellers. They have two, three and sometimes four old worn out rickety horses which the postillions lick through, at the rate of five or six miles an hour, changing every ten miles. These arrangements are all under government, such as they are. There is always a person called the guard, who accompanies the diligence. At each station the different postillions come round for their *buono mano*, and they look daggers if any of the passengers refuse. I never shall forget the first one, that drove us to the first station from Civita Vecchia. He was a small, wiry, dirty looking fellow, with a slouched hat, long boots coming up over his knees, a coat of all shapes of many colors, long hair, and petit larceny written all over the small portion of his face that was not covered with hair. But the most unfolding feature in this unhung rascal's countenance, was his eyes. They were small and deep set, jet black, looked askant of each other, and the light from the pupils seemed to come up out of hell itself. Every little while he would look around from his position on the near wheel horse and survey us, seemingly calculating the chances of success in an attempt to cut our throats.

The expenses of travelling on steamboats are about the same in proportion.

The climate of Italy is very different from what I supposed. Instead of finding a soft balmy air peculiar to our spring weather, and a blue sky such as we read of and see in the paintings of landscapes, I have found it quite the reverse. The weather is generally thus far, cold and rainy. Of the time I have been in Rome, it has rained more than one half. When it is warm, we have none of that rejuvenating weather, reminding one of the birds and flowers, the brooks and meadows, but a scalding, oven like heat, which is very oppressive and enervating. I have failed as yet in seeing sunrises or sunsets that begin to compare with those in Wisconsin, for delicacy of tint, and drapery in the clouds.

Now having got through some preliminaries heretofore unmentioned, yet which I think will contain matters of interest, to some, at least, of my readers, I shall in my next introduce them to the palaces, churches, picture galleries, temples, baths and theatres of one of the greatest cities of the earth, either of the past or present age.

But Rome now, great as she is, is but a shadow of what she has been. She sits under the cypress, with her harp on the willow. Byron, amid her ruins, with a heart sad as themselves, once sang:

> "The Niobe of Nations! there she stands,
> Childless and crownless, in her voiceless woe;
> An empty urn within her wither'd hands,
> Whose holy dust was scattered long ago;
> The Scipios' tomb contains no ashes now,
> The very sepulchres lie tenantless
> Of their heroic dwellers; dost thou flow,
> Old Tiber! through a marble wilderness?
> Rise with thy waves and mantle her distress."

Common Council.

The meeting of the Council on Monday evening was characterized by some features of interest.

An invitation was read from C. K. WATKINS President of the Lake Shore R. R., inviting the Common Council to be present at Kenosha on Thursday, to witness the laying of the last rail, completing the connection between this city and Chicago. The invitation was received with due complacency, and, as was right, $75 000 of the bonds of the Company released to them, in view of the advanced stage of the work.

We copy a portion of the Memorial of the Lake Shore Co. asking the release of the bonds:

The said company beg leave to represent to this committee that the said road is now within four miles of completion to the state line, and will be finished on Wednesday or certainly upon Thursday next. That said company have in readiness at Chicago a locomotive and eight passenger cars, and also have upon the track another locomotive and 10 house cars and 20 platform cars besides two other locomotives engaged and daily expected to arrive. The said company will commence as early as Friday, as is confidently believed, to run a train of cars in connection with the Illinois portion of the road to Chicago, and beginning the regular running of trains to Chicago next. The said company also represent that grounds have been purchased for depot buildings at the City of Milwaukee and are desirous of driving piles across the marsh as said city and of erecting suitable buildings and otherwise making complete the said road and all improvements connected therewith at the earliest day possible, and for such purpose to employ all the force that can operate in so doing. The said company are of opinion that it is greatly to the interest of this city to have all such improvements perfected as speedily as possible, and accordingly ask the favorable consideration of said council as having contributed essential aid to its road beg leave to assure said Council that the said road has always, in soliciting such aid, amply secured the said city, and make the present application in the sanguine belief that the security of said city is so abundantly ample that no possible contingency can the said city be exposed to loss.

Ald. Powers stirred up Marshal O'Brien considerably by intimating the propriety of his attention to the enforcement of sundry ordinances, relating to the collection of licenses of various kinds. It is singular that a man of Ald. Powers' sagacity has not long ago ascertained that the Marshal *takes pay for the honor of the thing*, not for enforcing ordinances.

The plat of the 5th Ward Ship Canal, reported by the local Board, was adopted, and notice of the jury ordered, to consider the subject in the form.

Ordinances passed concerning widening Spring St., and for permanent grade of North Water St.

A communication from the Chief Engineer was read asking a new Engine for Co No 1, the oldest in the City and one which needs and well deserves a new machine.

The Board adjourned to meet again in special session to morrow evening, at which time, it is understood that the Board of Health will be organized. We have in our possession a copy of an Ordinance, recently passed in Buffalo which contains some excellent provisions in relation to the preservation of public health, and it is at the service of any of the Aldermen who wish to use it.

American Iron.

The *Railroad Advocate*, speaking of the comparative excellencies of American and English iron has the following:

In regard to the wear of the two kinds of iron, we have conclusive experience. We do not believe there is a man of any experience who will deny that American iron is much better than English iron. On the Reading road where careful examinations have been recorded, and with a tonnage unsurpassed by any railroad on the globe, it is found that American iron wears but from one third to one half as fast as English iron. The average of six years' wear of 60 lb. English rail was about 11 per cent. annually.—The average of four years' of the "Erie" (English) pattern, was 16 per cent annually. Contrast with this the wear, *in the same track*, of the Phoenix and Danville rails. The rail of Reeves, Buck & Co., of Phoenixville, wore at the rate of 5 per cent a year for six years. The Montour or Danville rail, at the rate nearly of 5½ per cent. for four years.

Whatever may be the quality of a rail, the Reading road will prove its durability. No other test is needed—where fifteen millions tons of freights and cars are passed over a road in the pace of six years. If a rail is laminated, has soft spots, or is made inferior in any respect, it is bound to show itself, inside out, in a five years' test on the Reading road.

We hope other great roads will be made to show the relative wear of the two irons, not to establish any more conclusive proof of the superiority of American iron, but simply that its real character may become more generally known.

The Great Bombardment.

The correspondent of the London Times writes as follows, under date of April 10th.

During the whole of the morning, the firing continued on our side with little intermission, while that of the Russians was evidently slackening. At about four o'clock however, all the enemy's lines and batteries suddenly sprung into life and vigor. Volleys of from 100 to 150 guns were fired at once from the Redan, the Flagstaff, Barrack, Garden and Malakoff Batteries, even the Mamelon which all thought destroyed and crushed, fired five or six guns in rapid succession. Their shot came in upon our works like hail. On every point along our lines balls were to be seen bounding and plunging, and shells bursting like fireworks in the air. Never, perhaps was such a concentrated and destructive cannonade witnessed since the commencement of the siege. All felt that if it continued two or three hours our works would be leveled with the dust, although both English and French kept up a terrific fire. The enemy in spite of our utmost efforts gave five guns in reply to our one.

Suddenly the enemy's batteries made a dead pause. For nearly a quarter of an hour not a gun was fired. The allies kept up their bombardment, the French battered the Flagstaff and works to the left, our shot ploughed into the Redan and Malakoff, and our 13-inch shells burst in regular succession in the centre of the Mamelon, but not five guns did the Russians give in reply. Nearly twenty minutes passed on their side in this state of *inactivity*, when again suddenly the Redan and Flagstaff broke out in heavy volleys, and maintained them.

We are happy to announce that A. C. Bates, Esq. has resigned his appointment of Deputy U. S. Marshal, and that he believes the fugitive slave act is unconstitutional. He cannot be found in any sense aiding in its execution.—[Janesville Free Press.

ACCIDENT.—Just as the *Superior* was preparing to leave Day's dock, one of her deck hands had his leg badly broken, in consequence of getting it caught in a line used for making fast the boat. The injured man was a resident of Green Bay, and had shipped the morning of the accident.—He was immediately taken to his family and his wounds attended to.—[Ft. Howard Era.

The Voices of the Rain.

BY MARION HARLAND

[Authoress of "Alone, a Virginia Novel.]

> One balmy day—hast thou forgot?
> All April was the weather—
> When from the honey suckled porch,
> We watched the sky together,
> Through the thin, fleecy veil of clouds
> The sun was mildly beaming
> And more in mist than pattering showers
> The rain was softly streaming
> Like a [illegible] on the verdant plain
> Fell the gentle, gentle silver rain
>
> Another time—thou wert away
> 'Twas the glowing month of roses
> When summer wooed by ardent sun
> Her fervid heart discloses,
> There came a scroll which bade prepare
> For thee a speedy greeting;
> [illegible] by the casement sat
> With the welcome letter beating
> Time to the music 'gainst the pane
> Of the laughing singing, golden rain
>
> In gloom and storm our parting came
> That dark and weary fated even!
> We could but whisper brokenly,
> "If not on earth—in Heaven!
> At the future, stretched so dark and lone
> Our loving hearts were wailing,
> A piercing wildly-sad refrain
> To the heavy, sleeping Autumn rain
>
> What are we now? We who then vowed
> But death our hearts should sever?
> Within thy breast the flame of love
> Is quenched and cold forever,
> Whose deep in mine, that dole of woe
> Beats in its anguished throbbing—
> The blast against the window breaks
> In plaintive, fitful sobbing—
> And my heart weeps in tears in vain
> With the bitter, bitter winter rain

Richmond, Va., April 27, 1855

THE MANUFACTURE OF PORT WINE.—When port is required to be manufactured, two separate processes are deliberately and systematically gone through—first, the wine itself is made and then the bottles are prepared into which the liquor is to be transferred. When the mixture itself is deficient in the fragrancy peculiar to the grape, a bouquet is contributed, by means of sweet-scented herbs by orris root, elder flowers, or laurel water. A vineous odor is sometimes imparted by small quantities of the liquid known as the "oil of wine." The pleasant juice of the sloe imparts a port-like roughness to the compound, and sawdust or oak bark effect the same purpose. A fruity taste is given by a tincture of raisins, and the rich ruby color has probably once flowed in the vessels of the sandalwood tree.

But the bottles have to be crusted. This is done by tincture of catechu and sulphate of lime. The corks are steeped in a decoction of Brazil-wood, and the very casks are prepared with a layer of cream of tartar, which is formed at the bottom in glittering crystals. Thus a pipe of port which was young in the morning is made to fall into extreme old age in the course of the afternoon. There are exaggerations, and the following has been given as the chemical analysis of a bottle of cheap port wine, though for obvious reasons we suppress the quantities:—Spirits of wine, cider, sugar, alum, tartaric acid, and a decoction of logwood. In most instances, when the wine is not manufactured in this country, the consumer is victimized by a three fold adulteration. The exporter adulterates, the importer adulterates, and finally the retail dealer adulterates.—*Hunt's Magazine.*

WANTS OF JANESVILLE.—There are several kinds of business that might be prosecuted profitably in this City, and that would be of great advantage to the public, as well as the individuals who engage in them.

We need a good and extensive manufactory of farming tools. Cannot some one engage in this important business.

We need a manufactory of edge tools of various kinds.

A glass factory would be a great help to the country. We are told that sand is found in great abundance near us, such as is used in that important business.

A paper mill *is much needed.*

A pottery would do a fine business and we are surprised that there is none in Rock Co.

A shop for the manufacture of first class carriages might be a good addition to business in that important line.

These would increase business, give employment to industry and add to the population and wealth of the town. Who will *undertake* the works?—[Free Press.

Information Wanted.

The sudden and singular disappearance of two boys, by the names of James and William Dow, brothers, one fourteen and the other sixteen years of age, who left home on Sunday, March 4th, between 8 and 9 o'clock, has caused much anxiety to their parents. Which way they went or what has become of them, or for what cause they left is unknown. Their manner of leaving—one without a coat, both without a change of clothes, without taking money of their own and leaving behind clothing of importance to them—has been a source of much trouble, such as parents only can know.

Whoever will give information where said boys may be found or where they have been since the 4th of March, will relieve their parents of great anxiety, and may be assured that full compensation for all trouble will be granted with the great est pleasure.

WHAT OUR KNOW NOTHING FRIENDS MUST COME TO.—The New York Herald sees indications of a tendency of the Administration to a fusion with the Seward Holy Alliance. It tells the South that no party can be relied on save the "great national Know Nothing organization cleansed and purified, as it soon will be of the *dirt and refuse of the Massachusetts anti-slavery propaganda*." The Massachusetts brethren will be compelled to hoist a private and personal star-spangled banner.

Here is another rebuff from the Baltimore Patriot, a very strong and enthusiastic K N paper. "The K. N's of Massachusetts having taken strong abolition ground, cannot claim any *longer to belong to the order*. They are better entitled to the name of the black pepper party. At all events, they will doubtless—after the assembling of the national convention be a K. O., kicked out, party."—[Boston Atlas.

FAMINE IN UPPER GEORGIA.—We have sad accounts from the north part of Georgia. The Dalton *Times* says that many people are without corn, or any means to procure any and besides, there is none for sale. In some neighborhoods, a *bushel could not be obtained for love or money*. If they plead "our children will starve," they are answered "so will mine, if I part with the little I have." Horses and mules are turned out into the woods, to graze for grass or starve. The consequence is, that those who have land can only plant what they can with hoe—they cannot plow. It is seriously argued that, unless assisted soon, many of the *poor class of that section must* perish.[N. Y. Tribune.

TELEGRAPH FROM LONDON TO THE CRIMEA.—On the 26th ult. the electric telegraph was put in operation from the War-Office in Whitehall to the head quarters of Lord Raglan before Sebastopol, and the Government in the course of the afternoon received communications which were dispatched from the Crimea at four o'clock that morning. The submarine cable from Cape Kalerga in Bulgaria, to the Monastery of St George in the Crimea, lies a length of 301 miles across the bottom of the Black Sea. It was laid down on the 10th, 11th, 12th and 13th of April.—Henceforth, reports of all important events will be made simultaneously to Lord Raglan in the camp, and to the War-Office in London.

SAXVILLE.—This flourishing village is situated on Pine River in the town of Ontario, Waushara Co., in the heart of one of the best farming sections of Central Wisconsin. It has an excellent water power, and at present has four Mills in its vicinity, 2 flouring mills, each with two run of stones and corn crushers and 2 saw mills, making one and a half million feet of lumber per annum.

It contains a population of 100 persons.—Stevens Pt. Pinery May 10.

DROWNED.—At Conant's Rapids on Monday the 7th inst., Samuel Harlow, (late partner of Reuben Weeks, above Big Bull, formerly of the Kickapoo River,) also Lawrence Welch, understood to have been from near Montello. Lost in attempting to go in a skiff to a crib of lumber that had got fast in the river, just above what is known as the red rock, two other persons were in the boat when it capsized, to-wit: William Reynolds and Samuel Jackson. Reynolds got on to the crib, Jackson swam to a rock and was saved.—*Stevens Point Pinery.*

THE LUMBER.—Our raftsmen had about eight days of the best kind of running, and got out the lumber with great rapidity. The water went down suddenly on the 6th and 7th, and a general suspension is the consequence. We look for showers soon, and hope to see a rise of the river and a resumption of the running out of rafts. The quantity to go out is heavy. One house alone, Messrs McIndoe & Shuter, have, as we are informed at least *one hundred thousand dollars worth* on the water.—[Stevens Pt. Pinery, May 10.

MORE NEW BUILDINGS.—Messrs Cook & Davis have the contract for erecting the "Union School House," on Church street, in this village. The building is being constructed of cut stone, two stories high, and 44 by 54 feet on ground. The walls are already up 8 or 10 feet. The stone work will cost about $2000, and the building, when completed, will cost $5 000 or $6,000. It will be an imposing edifice, and certainly an ornament to the village.—[Waukesha Plaindealer.

FIRE IN THE WOODS.—For the last two weeks the woods in every direction have been on fire. We should suppose much valuable timber must have been destroyed.—[Ft. Howard Era.

CITY MATTERS.

POLICE COURT.—May 15.

BEFORE CLINTON WALWORTH, ESQ. POLICE JUSTICE.

A warrant was issued against Charles Reed, for committing an assault and battery upon Sarah Reed his wife. The defendant was arrested on Monday night by constable Kisler, and put in jail. He had not sufficiently recovered from his drunkenness to be tried, the case was set down for this morning at 9 o'clock.

A warrant was issued against A. F. Johnston for assault and battery upon Cornelius Washington.

Menzel, Stone & Co's. Steam Engine Factory.

Messrs MENZEL, STONE & Co., of the Fifth Ward have just turned out from their factory, a short distance south of the Menomonee Bridge, a splendid Steam Engine for R. Mason, of Portage City. It is 26 inch stroke, 10 inch bore, solid bed frame of iron, 8 feet balance-wheel, 16 inch face, intended for driving pully. Another in the shop is nearly finished for Mr Brawley, of Stevens Point, of smaller size—8 inch bore, 16 inch stroke, intended to run 300 per minute. Both these engines are exceedingly simple and of the best workmanship. They have been made to wear, the solid bed frame being a great advantage. One engine of their make is now in operation at P. S. Green's, Watertown. The boilers are made by CUMMINGS & GOODRICH. The engine made for Mr Mason is still in the shop and can be seen for a few days. They are prepared to receive orders for engines of any power, also for Threshing Machines, Pumps, Saw Mills, Horse Powers, Hoisting Machines &c. They can be found on the corner of South Water and Reed Streets, next to the Menomonee Foundry, Fifth Ward.

PROPELLER NIAGARA.—Elsewhere will be found the list of consignees of merchandize brought up by this vessel. She looks rather the worse for her long winter's stay in the sand of Presque Isle Bay but is staunch and strong, and will come out all right yet. A large part of the cargo consisting of coffee, fish groceries, &c., which had been several months under water, was of no particular account except to give the hands the cholera in getting it out of the hold.

The propeller had on board some $60 000 worth of merchandize for this port, of which $16 000 was for Sexton Bro's. The owners of the boat, the owners of goods, and the Insurance Companies (the Home and the Commercial of this city) having some $30 000 at risk are at issue about the heavy damages and Sexton Bro's have attached the boat. The goods are stored at GOODRICH HUNTER & Co's.

HATS CAPS & FURS.—We took a hasty survey, yesterday of the premises No. 180, East Water Street occupied by THROOP & BROTHER, which in all four stories, is filled with goods. Every style of Hat & Cap for Spring or Summer wear, may there be found and the most fastidious taste suited to a dot. Some of the new styles of summer hats are exceedingly neat and cool looking, and wholesale as well as retail purchasers can be readily accommodated by Uncle Ben. We noticed in front of the store several packages of [illegible] for shipment East, making almost $3000 that *Throop & Brother have already sent forward this season.*

RAILROAD FREIGHTS—GOODS FOR THE COUNTRY.—The Railroad depot is crowded with merchandize for the country, though no goods forwarded by the Erie canal, have yet got along. The M. & M. Railroad Company despatch two freight trains Westward, daily, and will have to send *three* a day to clear out the accumulating stuff. The in-freights are also large, and the receipts of the road nearly $2 000 a day. *The Watertown road* is also doing a very large business, both in passengers and freight.

NOT A FALSE ALARM.—We are informed by the watchman of the Menomonee Foundry that the alarm of fire on Sunday evening last, did not proceed from a steamboat bell, but was rung by himself and Engine Co's No. 4's bell, as flames were seen to rise for some minutes from the brick block on East Water St. between Detroit and *Buffalo Street.*

WHITEWATER ENTERPRISE.—An extra train on the Mil. & Miss R. R., brought in yesterday from Whitewater 1120 bbls. pork, put up by S. C. HALL & Co., merchants of that thriving village. The same firm we understand, has about the same quantity still to come in.

MENOMONEE BRIDGE.—The bridge across the Menomonee, near the Railroad depot was open full two hours, yesterday morning, to allow two or three lumber craft to haul through, delaying score of cartmen, teamsters and others taking loads of produce and merchandize, to or from the Railroad. This is a nuisance that needs prompt attention.

DRY WEATHER.—The country thirsts *for rain* and farmers begin to feel anxious about their crops. The warm, dry weather of the last fortnight or so is trying to the young grain. The skies have promised rain for a day or two, and it is to be hoped that it will soon be forthcoming.

☞ The steamer *Arctic* arrived from Chicago yesterday afternoon, with 350 passengers and a good load of freight. A very handsome horse was brought in her, and is for sale.

The *Arctic* brought a large number of passengers some of whom were in a very sickly condition.

SUGAR-CURED HAMS.—The propellor *Allegha*ny takes for the benefit of down east *bonvivants* 300 barrels of ALFORD & Co.'s superior sugar-cured hams, which have a deservedly high reputation. They are contracted through to Troy, at $11 per ton.

THE CITY MILLS.—Messrs STUART & HOTCHKISS, whose card see in our advertising columns, have taken the City Mills, and are prepared to supply their customers and the public with Flour, Mill Feed, &c.

DAMAGED DRY GOODS AT AUCTION.—Rooney has an extensive sale of damaged dry goods at auction, Friday morning, to which he invites the attention of country merchants.

THE BALAKLAVA RAILROAD.—The London *Times* says editorially that the public will learn with scarcely less surprise than satisfaction that the main object of the Crimea Railway Expedition is already completed, and that the munitions of war are now being conveyed direct from Balaklava to the trenches. It is needless to us how vast a remission of toil to the overtaxed strength of the troops is thus effected, and with what increase of vigor and animation they now address themselves to the legitimate prosecution of the business of the siege, without the exhausting strain consequent on labors wholly alien to those of an ordinary military nature.

However the line is now laid and worked from Balaklava to the French at the top of the steep incline, hitherto by horses, but at the date of the last advices the engine had begun to supersede animal power, which was gladly used for other purposes. Thanks to the agency of the railway, we have now begun to reciprocate the services the French had bestowed upon us in our extremity, for a large quantity of hut and hospital timber had been forwarded as long ago as the 10th and such aid was highly appreciated by our allies, who are enthusiastic in their admiration of the systematized application and endurance of the navvies and delighted by the methodical order and regularity that prevail through all the arrangements of the corps.

This recognition in the part of the French is the more remarkable as they themselves are, and have all along been, well provided with horses and other means of transport. The branch to the opposite side of the harbor has for some time been completed, and available for the removing the heavy guns and mortars on the Diamond wharf, and by rendering both sides of the harbor is of the greatest utility."

☞ The rush of vehicles past our sanctum seem to increase daily, and *business of all kinds* has never been so lively. New buildings are going up, and old ones go down or out of the way at a rapid rate. Stone and brick blocks, for business purposes, are filling up the business portions of our place, but a much larger number of dwelling houses than is being erected are absolutely needed. We are daily losing population on account of this want.—[Madison Democrat.

REAL ESTATE SALE.—Forty acres of land, on the south line of Wauwatosa, four miles from the city limits, were sold yesterday, by John Sheldon, to Geo. Gordon and C. D. Booth, for $1,700—42 50 per acre.—[Free Democrat.

NOTICE TO MARINERS.—The Detroit Inquirer cautions mariners navigating the Detroit river relative to the wreck of the *Oregon*, which is now sunk below the surface in the channel in a very dangerous position for vessels passing up or down. There is no buoy or mark to show where the sunken wreck lies and this creates the difficulty. The *Oregon* lays a little below the upper fish houses on Hog Island, about midway between the banks, and rather on the British side of the channel. Vessels passing should keep well in with the point on Hog island.

MEXICAN MUSTANG LINIMENT.

From rich and poor, bond and free—all grades, colors and conditions, the same meed of praise is *irresistably* given to this wonderful preparation. Thousands of bottles are *sold and used daily*, and but one universal opinion is uttered by all who use it, and that is, that no remedy ever before discovered, possesses such perfect healing and curative properties. *It acts like magic in relieving pains* of any kind, no matter by what caused, or how excruciating—sprains, dislocation of joints, bruises, cuts, burns, scalds, ulcers, cancers, rheumatism, piles, caked breasts or any pain, soreness, stiffness, or weakness of joints muscles or ligaments. *The Liniment is equally applicable and equally effectual in giving immediate relief.* Try it.

Holloway's Ointment and Pills, the most efficacious Remedies in the Union for the cure of Erysipelas. Emma Henderson, of Fourth st., Philadelphia, was a very severe sufferer for two years with the Erysipelas, she became almost blind and deaf with the severity of the disease, so bad was the attack, she consulted several of the Doctors in her neighborhood, but they did her no good. She finally determined to have recourse to Holloway's Ointment and Pills, and by the joint use of these two remedies, she was cured in six weeks, after every other treatment had failed. my16 d&c1w

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound a day or two ago was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket, and so he does.—*St. Louis Intelligencer.*

PIANO FORTES

—AT—

GREAT BARGAINS!

No. 11, Spring Street.

I INFORM THE PUBLIC OF MILWAUKEE AND vicinity that I will sell for one month, all the Pianos on hand at

Boston Wholesale Prices!

Those who want to secure a GOOD TONED CHEAP and WARRANTED PIANO FORTE, will find it to their interest to call early. I will sell elegant 6¾ octave, Rosewood round cornered Piano Fortes at the

Extreme Low Price of $225 apiece.

These Pianos are all with the celebrated Patent American Action, manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession residents at Boston and elsewhere among which is the following

The American Action Piano at the Great London Fair Boston, August 14, 1853

The undersigned, who were officially associated with the *Great Exhibition* in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman, Mr George Hews, by gentlemen capable of appreciating both the tone of a Piano as well as the external finish and elegance of workmanship. The unrivalled Pianist, THALBERG, who was on the musical jury pronounced it one of the *sweetest* as well as *most perfect toned instruments* in the exhibition

City Land Office.

Corner of East Water and Wisconsin Sts

I WOULD CALL YOUR ATTENTION this morning, to one of the most beautiful situations in the County of Milwaukee, Being on a Plank Road, one mile from the City limits with a Super or Brick House containing five Rooms. The entire House is warmed with a Furnace. It contains all necessary outbuildings, two good Cisterns and a well together with Twenty acres of Land beautifully improved and handsomely decorated with the finest Shrubbery, and as for Fruit is not to be surpassed consisting of Apples, Pears, Plums, Apricots, Peaches, Cherries, Grapes, &c. &c. In fact it is not to be excelled in the whole State. The property is well worth and should sell for $20,000, but business calls the owner a portion away for a time, is the reason why he disposes of it.

It will be sold at a bargain and on good Terms. And he who gets it will never want to part with it.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road

The subscriber offers at private sale, READLAND, the . . . farm upon which he now resides situated about two miles from the village of Hartland, Waukesha Co., and containing about 350 acres, 250 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed in richness and productiveness of soil and for beauty of scenery and location acknowledged to be one of the most desirable residences in the State. It is bounded upon the West, to a great extent by Pine Lake, one of the largest and most beautiful of our Inland Lakes, giving it superior advantages for water power and bathing, and the Lake abounds with fish and game in great variety.

It is situated upon the Milwaukee & Watertown Rail and Plank Roads and within a short walk of Pine Lake Station and Hartland Depot, it is easy of access and communication with Milwaukee, affording ready market for all kinds of produce, being . . . good stores and grist mills in the neighboring villages of Delafield Hartland and Oconomowoc.

The Nashotah Theological Seminary is within 3 miles, churches and schools convenient. The land is in a high state of cultivation has always been manured with care, and a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House, with well and good water attached, frame Tenant House, a large Barn 60x36, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable.

Baptist Home Mission Convention.

Chicago, May 14th

The Convention met this forenoon in the Tabernacle Church, Dr. Cone of N. Y. presiding. Attendance very large. Delegates enrolled from thirteen States and Territories. Report of Provisional Committee adopted, and committee continued till the Home Mission Society removes from the Nassau Street Bible House.

Resolutions passed approving of the conduct of the Home Mission Board, and condemning the majority as tyrannical and schismatic.

The Convention deemed it inexpedient to organize a new Society at present, and pledge co-operation with the Committee appointed at Brooklyn last week. A great conciliation meeting was held this afternoon, and all parties pledged harmony and co operation.

Farm for Sale.

THE SUBSCRIBER WILL SELL ONE of the best Farms in Milwaukee County, situated in Oak Creek township, adjoining the town of Lake eight miles from Milwaukee, on the Chicago road. The Lake Shore Railroad passes through the centre of the Farm at right angles, and the Depot is within one hundred rods of the farm

This farm contains about ninety acres good timber, and the best watered farm in the county. The House is large and location fine. One 30 by 40 Barn, one 20 by 40 Barn, a Granery 18 by 20, and other out buildings. An Orchard of 70 bearing Apple Trees, all graft ed fruit

The subscriber bought the farm fourteen years ago, of John T. Haight, Esq., who surveyed this part of the country. All who know the place will say that a better dairy farm can not be found.

The price of the farm is $50 per acre—one half down, the balance from one to four years at 7 per cent.

A GREAT DISCOVERY!

The Floating Drag, or Anchor!

AND

SHIP'S LIFE PRESERVER.

SINCE THE SAD LOSS OF THE Steamship *San Francisco*, in December, 1853 the undersigned (for twenty years a practical sailor) has invented an instrument that will bring any Steamer or any Sail Vessel's head to the wind and sea in a gale, or at any time when they make any drift to the leeward and reduce their drift from four miles to one.

He having obtained a Patent for the same, is now prepared (through his Agents) to sell the "Right" to make and use the above named instrument to owners of Vessels.

DAVIS' PATENT

Adjustable Churn & Butter Worker

COMBINED.

THE SUBSCRIBER OFFERS TO THE FARMERS OF Wisconsin the above named article warranting it to perform the several operations of Churning, Gathering, Working and Salting the Butter before taken from the Churn, with ease, completeness and despatch. It dispenses with the use of the hand ladle, and saves more than one-half the labor usually bestowed in making Butter.—It is strong and durable, easily cleaned and kept in order, simple in its construction, and scientific in its operations.

Stevens & Kidder's Patent

FOR RIVING & SHAVING SHINGLES.

THIS MACHINE has the preference over all other like Machines in the simplicity of its mechanism and the perfection of its work, as well as in the first cost of the Machine, and the economy of running it.

It rives with a blunt and moveable knife, and shaves by passing the shingle between two knives, thereby shaving both sides at the same time, and on a true and equal taper. The Patent has been sold in several counties and machines are now in operation in Jefferson, Sauk and Portage counties.

This Machine manufactures from 10 000 to 20,000 shingles per day—requires only a two horse power, and costs $175

Again, we say, wait till you see this Machine. A Model of the Machine can be seen at W. P. FLANDERS' Office, Ludington's Block, East Water street, where one of the subscribers will be in attendance.

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15 1855

Messrs. A. G. BRAGG & Co.,

Dear Sirs: Allow me to add my testimony to the extensive . . . of the Mustang Liniment . . . of burns or scalds. I had a son badly burnt in his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang Liniment with nothing else, and in a few days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER County Judge

RUSSELL COUNTY, Ala., Feb. 1, 1853

For the benefit of the afflicted I feel it my duty to state publicly, the remarkable cure that has been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon or Whitlow on her finger. The inflammation had been so extensive, that the whole finger had become a mass of corruption and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician . . . she tried the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus as it . . . might prevent mortification. To the astonishment of both doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was a severe burned. The skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied and nothing else was used. The relief and cure was almost beyond belief, but a short time elapsed before the wound was perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILIPS

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been used was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as pain, cramps, chills, pains or lameness in the back, ear or limbs, than rheumatism, any other remedy. There are thousands and millions of persons know from having used it. We say millions and base the assertion on the fact that over fifteen millions of bottles have been used and never heard of a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary only to remind the people of these facts to induce them to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of 3 sizes, and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three and a half as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

RHODES'

FEVER AND AGUE CURE,

OR,

Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chill Fever, Dumb Ague, General Debility, Night Sweats, and other forms of disease which have a common origin in Miasma or Miasms. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character whatever it exists—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICAL SCIENCE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will take the place of quinine . . . for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic and other poisonous or deleterious drugs not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billous or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application and the article will be consigned on liberal terms to responsible parties in every section of the country.

PIANO FORTES

—AT—

GREAT BARGAINS!

No. 11, Spring Street.

I INFORM THE PUBLIC OF MILWAUKEE AND vicinity that I will sell for one month, all the Pianos on hand at

Boston Wholesale Prices!

Those who want to secure a GOOD TONED CHEAP and WARRANTED PIANO FORTE, will find it to their interest to call early. I will sell elegant 6¾ octave, Rosewood round cornered Piano Fortes at the

Extreme Low Price of $225 apiece.

These Pianos are all with the celebrated Patent American Action, manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession residents at Boston and elsewhere among which is the following:

The American Action Piano at the Great London Fair. Boston, August 14, 1852

The undersigned, who were officially associated with the *Great Exhibition* in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman, Mr. George Hews, by gentlemen capable of appreciating both the tone of a Piano as well as its external finish and elegance of workmanship. The unrivaled Pianist, Thalberg, who was on the musical jury pronounced it one of the *sweetest* as well as *most perfect toned instruments* in the exhibition.

EDWARD RIDDLE, United States Commissioner to London Exhibition of 1851

Washington, May 14th

Hon D. H. Huntington of Conn is appointed Clerk of the Court of Claims

Baptist Home Mission Convention.

Chicago, May 14th

The Convention met this forenoon in the Tabernacle Church, D. Cone of N. Y. presiding. Attendance very large. Delegates enrolled from thirteen States and Territories. Report of Provisional Committee adopted, and committee continued till the Home Mission Society removes from the Nassau Street Bible House.

Resolutions passed approving of the conduct of the Home Mission Board, and condemning the majority as tyrannical and schismatic.

The Convention deemed it inexpedient to organize a new Society at present, and pledge cooperation with the Committee appointed at Brooklyn last week. A great conciliation meeting was held this afternoon, and all parties pledged harmony and co operation.

Benton's Libel Suit—Archbishop Hughes and Senator Brooks.

St. Louis, May 15

The slander suit of Birch against Benton, was decided in the Henry Co Circuit Court last Friday, after a trial of 4 days, by a verdict for the plaintiff for $5,000 damages. The case will be taken to the Missouri Supreme Court by Col Benton.

New York, May 14

Archbishop Hughes issued his promised statement in reply to the charges of Erastus Brooks, of the Express, this A. M., in a communication of over three columns. He proceeds to review the whole question, and attempts to father the alleged falsehoods upon Mr Brooks, against whom he proves many technical errors in regard to the conveyance of property.

Farm for Sale.

THE SUBSCRIBER WILL SELL ONE of the best Farms in Milwaukee County, situated in Oak Creek township, adjoining the town of Lake, eight miles from Milwaukee, on the Chicago road. The Lake Shore Railroad passes through the center of the Farm at right angles, and the Depot is within one hundred rods of the farm.

This farm contains about ninety acres good timber, and the best watered farm in the county. The House is large and location fine. One Barn 30 by 40, Barn 30 by 20, Barn and Granary 18 by 20, and other outbuildings. An Orchard of 70 bearing Apple Trees, all graft ed fruit.

The subscriber bought the farm fourteen years ago, of John T. Haight, Esq., who first settled this part of the country. All who know the place will say that a better dairying farm can not be found.

The price of the farm is $50 per acre—one half down, the balance from one to four years at 7 per cent.

SHIP'S LIFE PRESERVER.

SINCE THE SAD LOSS OF THE Steamship *San Francisco*, in December, 1853, the undersigned (for twenty years a practical sailor) has invented an instrument that will bring any Steamer or any Sail Vessel's head to the wind and sea in a gale, or at any time when they make any drift to the leeward and reduce their drift from four miles to one.

He having obtained a Patent for the same, is now prepared (through his Agents) to sell the "Right" to make and use the above named instrument to owners of Vessels.

DAVIS' PATENT Adjustable Churn & Butter Worker COMBINED.

THE SUBSCRIBER OFFERS TO THE FARMERS OF Wisconsin the above named article warranting it to perform the several operations of Churning, Gathering, Working and Salting the Butter before taken from the Churn, with ease, completeness and despatch. It dispenses with the use of the hand ladle, and saves more than one-half the labor usually bestowed in making Butter—It is strong and durable, easily cleaned and kept in order, simple in its construction, and scientific in its operations.

I would ask an examination and trial of this Churn. Manufactured at

HOLD ON!

Ye Lumbermen and Shingle Mongers.

WAIT TILL YOU HAVE SEEN

Stevens & Kidder's Patent FOR RIVING & SHAVING SHINGLES.

THIS MACHINE has the preference over all other like Machines in the simplicity of its mechanism and the perfection of its work, as well as in the low cost of the Machine, and the economy of running it.

It rives with a blunt and moveable knife, and shaves by passing the shingle between two knives, thereby shaving both sides at the same time, and on a true and equal taper. The Patent has been sold in several counties and machines are now in operation in Jefferson, Sauk and Portage counties.

This Machine manufactures from 10,000 to 20,000 shingles per day—requires only two horse power, and costs $175.

Again, we say, wait till you see this Machine. A Model of the Machine can be seen at W. P. FLANDERS' office, Ludington's Block, East Water street, where one of the subscribers will be in attendance.

RELIABLE EVIDENCE.

BLOOMFIELD, MO., January 16 1853

Messrs A. G. Bragg & Co.,

Dear Sirs: Allow me to add my testimony to the [illegible] of burns or scalds. I had a son badly burnt [illegible] face and hands by powder. It was expected that he would be injured for life. We applied the Mustang [illegible] with raw cotton, and nothing else, and [illegible] entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER County Judge

RUSSELL COUNTY, Ala., Feb 1, 1853

For the benefit of the afflicted I feel it my duty to state publicly, the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress I [illegible] had what is called a [illegible] on her finger. The inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician [illegible] the Mustang Liniment a few days, till she could be taken to a surgeon in Columbus as it could not [illegible] might prevent mortification. To the astonishment of [illegible] and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is [illegible] well and sound. One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied and nothing else was used. The relief [illegible] was almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation.

JAMES PHILLIPS

NOTE SO NEW—BUT EVEN TRUE.—I would be nothing new to say that the Mustang Liniment had been used [illegible] than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as pains, cramps, [illegible] pains or lameness in the back, [illegible] limbs, than rheumatism, any other remedy. [illegible] millions of persons know from having used it. We say millions and base the assertion on the fact that over fifteen millions of bottles have been used and never been a complaint against it. [illegible] has been used and used thoroughly. We desire to remind the people of these facts [illegible] try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES—It is put up in bottles of three sizes, and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three and a half times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

RHODES' FEVER AND AGUE CURE,

OR,

Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chill Fever, Dumb Ague, General Debility, Night Sweats, and other forms of disease which have a common origin in Miasma or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICAL SCIENCE.

This specific is so harmless that it may be taken by persons of every age sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from these Billious attacks in that season of the year which while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application and the article will be consigned on liberal terms to responsible parties in every section of the country.

DR. J. B. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females

IT STANDS PREeminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints

Of these are PROLAPSUS UTERI or Falling of the Womb. FLUOR ALBUS or Whites,—CHRONIC INFLAMMATION AND ULCERATION OF THE WOMB, INCIDENTAL HEMORRHAGE OR Flooding, PAINFUL SUPPRESSED AND IRREGULAR MENSTRUATION, &c, with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhea, Prolapsus Uteri and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.

Truly Yours,

WM. LAIRD HAZLETT, M. D.,

July 6th, 1854 New Philadelphia Ohio

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D.,

Syracuse N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use together with letters from highly experienced Physicians, who have used it in their practice and speak from their own observations.

EVARTS'

Patent Shingle Mill.

EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this mill its superiority is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives a great speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market even fifty cents per thousand higher than any other saw'd shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Lots in Sherman's Addition

FOR SALE.

THE FOLLOWING LOTS IN SHERMAN'S ADDITION, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court, there for there will be no more question about the title.

Now for another fact — A more beautiful prospect can not be found than Sherman's Addition. You have a full view of the City and Lake, for health it is not to be surpassed, the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward, and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

The foregoing Lots are sold to close up the estate of our late friend HOLLIDAY

QUEEN'S PATENT

PORTABLE FORGE AND BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others having two Slides by which the Forge can be close by shut up and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way, It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries ever offered to the public, and are successfully used by most of the steamers, and also by the U S Army and Navy. For sale by

CITY LAND OFFICE.

I CALL YOUR ATTENTION TO one of the most beautiful Farms in the State of Wisconsin, known as the

Walnut Hill Farm.

The description of it is as follows, given by the owner, and he offers it on easy terms.

The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and fifty acres of land, well watered by springs, and has a mile of front on the lake—has a good new framed house and barn located upon the bank of the Lake, with good hard gravelled shores, and is surrounded with groves of fine hickory trees, which bore in abundance last season, there being about five hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836, and now has over one hundred acres under plough, in a fine state of cultivation—about sixty acres of good hay land, the balance timber—is all under fence, has a plank road within two miles on the north and a good road within two miles on the south—the depot, at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. Pewaukee Lake abounds with the finest kind of fish. The Farm is one of the best Stock Farms in all the Western country—none excepted. It is 25 miles from Milwaukee—8 miles from Waukesha.

Terms is one quarter cash—balance in 1, 2 and 3 years, with 7 per cent interest.

Now, who of you want a Farm? Here is a chance seldom offered, and it will be sold at a great bargain. Apply to april3 CALEB WALL, Agent.

FOR SALE.

A SPLENDID FARM of 457 Acres situated three quarters of a mile from the village of Troy, Walworth county, Wis. This Farm nearly surrounds a beautiful Lake, 1½ miles in circumference, and is also watered by a small stream, which renders it extremely desirable as a Grazing Farm.

The land is of excellent quality, comprising Prairie, Oak Openings and Meadow.

There is an inexhaustible bed of the purest Marl on this property. This article makes the purest and best Lime used, and is also an excellent fertilizer.

The buildings are excellent, and compose of a Frame Dwelling House, a large Barn and a Granary. Also, two inferior houses for farm laborers.

This property is susceptible of being divided into three Farms—West Farm, 80 acres, center Farm 277 acres, and East Farm 100 acres.

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases. Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c. &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct A A HAYES Analytical Chemist of Boston and State Assayer of Massachusetts whose high Professional character is endorsed by the—

Hon EDWARD EVERETT, Senator of the United States.

ROBERT C WINTHROP, Ex Speaker of the House of Representatives.

ABBOTT LAWRENCE Minister Plen to England

JOHN B FITZPATRICK Catholic Bishop of Boston so

Dr J R CHILTON Practical Chemist of New York City, endorsed by

Hon W. L. MARCY, Secretary of State

WM. B ASTOR, the richest man in America

S LELAND & Co, Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills the result of long investigation and study are offered to the public as the best and most complete which the present state of medical science can afford—They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines, has been found in Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved more purely remedial and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

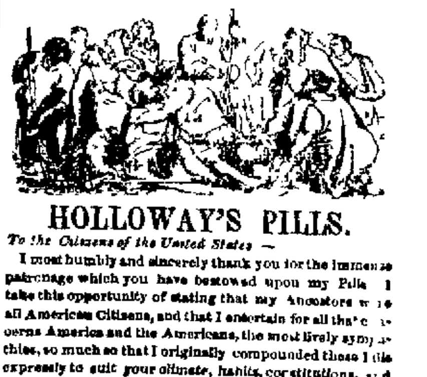
THE AMERICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States —

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.

THOMAS HOLLOWAY,

38, Corner of Ann and Nassau Streets, New York.

THE BLOOD, LIVER AND BILIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps the most handsome in the World, at a certain period lose their health and good looks while yet in the hey day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly. I say fearlessly that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING

Captain John Johnson of Astor House New York suffered for ten years from a derangement of the Liver and Stomach and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the soundest health.

These celebrated Pills are wonderfully efficacious in the following complaints —

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Doloureux
Bilious Complaints	Erysipelas	Piles	Tumours
Blotches on the Skin	Female Irregularities	Rheumatism	Ulcers
Bowel Complaints	Fevers of all kinds	Retention of Urine	Venereal Affections
Colics	Fits	Scrofula, or King's Evil	Worms of all kinds
Constipation of the Bowels	Gout	Sore Throats	Weakness from whatever cause, &c.
Consumption	Head ache	Stone and Gravel	
Debility	Indigestion		
	Inflammation		
	Jaundice		

☞ SOLD AT THE ESTABLISHMENT OF PROFESSOR HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Boxes, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

DR. J. B. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females.

IT STANDS PREeminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints

Of these are Prolapsus Uteri or Falling of the Womb, Fluor Albus or Whites, Chronic Inflammation and Ulceration of the Womb, Incidental Hemorrhage or Flooding, Painful Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C. ORRICK, M. D., Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will reach.

Truly Yours,

WM. LAIRD HAZLETT, M. D., July 6th, 1854. New Philadelphia, Ohio

I must say, from my own experience and personal observations in my practice, it has proved to be the best and most remedy for that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D., Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use together with letters from highly experienced Physicians, who have used it in their practice and speak from their own observations.

EVARTS' Patent Shingle Mill.

EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives a great speed of execution, and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market twenty five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order

Lots in Sherman's Addition

FOR SALE.

THE FOLLOWING LOTS IN SHERMAN'S ADDITION, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court, there fore there will be no more question about the title.

Now for another fact — A more beautiful prospect cannot be found than Sherman's Addition. You have a full view of the City and Lake, for health it is not to be surpassed, the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward, and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

The foregoing Lots are sold to close up the estate of my late friend HOLLIDAY.

QUEEN'S PATENT

PORTABLE

FORGE

AND

BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others having two Sides by which the forge can be closely shut up and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations) all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

CITY LAND OFFICE.

I CALL YOUR ATTENTION TO one of the most beautiful Farms in the State of Wisconsin, known as the

Walnut Hill Farm.

The description of it is as follows, given by the owner, and he offers it on easy terms.

The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and fifty acres of land, well watered by springs, and has a mile of front on the lake—has a good new framed house and barn located upon the bank of the Lake, with good hard gravelled shores, and is surrounded with groves of fine hickory trees, which bore in abundance last season, there being about five hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836, and now has over one hundred acres under plough, in a fine state of cultivation—about sixty acres of good hay land, the balance timber—is all under fence, has a plank road within two miles on the north and a good road within two miles on the south—the depot, at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. Pewaukee Lake abounds with the finest kind of fish. The Farm is one of the best Stock Farms in all the Western country—none exceeded. It is 25 miles from Milwaukee—6 miles from Waukesha.

Terms is one quarter cash—balance in 1, 2 and 3 years, with 7 per cent interest.

Now, who of you want a Farm? Here is a chance seldom offered, and it will be sold at a great bargain. Apply to apr18 CALEB WALL, Agent.

Ice for the Season.

HENRY KROEGER will supply his customers with Ice for the Season of 6 or 7 months, at $10 and $20, according to the quantity delivered, payable every two months, or by the pound at the rate of 37½ cents per hundred. The increased cost of getting Ice last winter, and the advance in the wages of the men, compel him to put up the price. [illegible] m4-d1m

FOR SALE.

A SPLENDID FARM of 457 Acres situated three quarters of a mile from the village of Troy, Walworth county, Wis. This Farm nearly surrounds a beautiful Lake, 1½ miles in circumference, and is also watered by a small stream, which renders it extremely desirable as a Grazing Farm.

The land is of excellent quality, comprising Prairie, Oak Openings and Meadow.

There is an inexhaustible bed of the purest Marl on this property. This article makes the purest and best Lime used, and is also an excellent fertiliser.

The buildings are excellent, and compose of a Frame Dwelling House, a large Barn and a Granary. Also, two inferior houses for farm labors.

This property is susceptible of being divided into three Farms—West Farm, 80 acres, center Farm 277 acres, and East Farm 100 acres.

For further particulars, apply to J. H. CRAMPTON, Milwaukee, or D. HOOPER, Esq., Troy, Wis.

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammation, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c. &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention:

Doct A. A. HAYES Analytical Chemist of Boston and State Assayer of Massachusetts whose high Professional character is endorsed by the

Hon EDWARD EVERETT, Senator of the United States.

ROBERT C WINTHROP, Ex Speaker of the House of Representatives

ABBOTT LAWRENCE Minister Plen to England

JOHN B FITZPATRICK Catholic Bishop of Boston

also

Dr J R CHILTON Practical Chemist of New York City, endorsed by

Hon W L MARCY, Secretary of State

WM. B. ASTOR, the richest man in America

S LELAND & Co, Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills the result of long investigation and study are offered to the public as the best and most complete which the present state of medical science can afford. [illegible]
